GOVT OF MYSORE

Sir,

Ref Arrears of water charges amounting to Rs 440-4-0, due in respect of Aramane Padmaraja Pundit Jain Boarding Home, Mysore

Arrears of water charges to the extent of Rs 440-4-0 were outstanding against the above institution since March 1932 to the end of September 1940 Inspite of repeated requests the institution was unable to make payments on account of their unsatisfactory nature of its financial position

This institution, on account of mismanagement was taken over by the Government and the Assistant Commissioner of the Mysore Sub-Division at present is the president of the institution The managing committee under his presidentship have resolved on 20-7-1939 to request the Municipality to write off the water charges accrued due He again pressed on the attention of the Municipal Council, the fragile financial position of the free boarding home and its inability to pay the water charges in his letter of J B 27/40 dated 18/20th June 1940

The whole matter was placed before the Council and the Council have resolved to write off the arrears of water charges due from this institution as this is a charitable institution intended solely for the poor Jain Brahmin students No fees are, it is stated, being levied from any of the boarders

Under the circumstances I have the honour to request you to kindly obtain the sanction of the Government for the resolution of the Municipal Council to write off the arrears of water charges due from the institution

53 Vice-President s note and the remarks of the President thereon re the present water supply rules

Resolution of the Managing Committee dated 17 7 1941

25 (1) Granting free allowance of water to which the owner is entitled ordinarily cannot now be granted if he undertakes additional constructions or improvements to his house The whole water service is now treated as non domestic and no free allowance is granted

Resolution —With regard to houses that are already metered du ing the period of constru tion the excess water charges at the non domestic rates should be l ied only after allowing the f ee allowance for domestic consumption admiss ble und r the rules With regard to houses on which flat rate is charged excess water charges may be levied on non domestic rates on the e cess after allowing f ee llowance to which the house would have been e titled if it had been metered free allowance being calculated on the daily basis

(2) In the case of common supply of water to two or more houses where houses are independently assessed the present practice is to allow free allowance on the aggregate rental value of all the buildings There is no sanction for such a practice

Resolution —Whe e two or more houses are independently assessed and there is a common supply the free allowance will be based as at present on the aggreg te rent l value of the buildings But in cases where on account of the extra cost that will devolve on the Municipality by givi g a separate con nection to e ch i di idual house and therefore the Municipality would prefer to give a common co ection as has been done in the case of Jayalakshmi Vilas Mansion Free allowance may be given to each house in question based on its rental value

(3) (a) In the case of partial completion of constructions where the owner undertakes not to proceed with further construction it is not certain whether meter could be removed and connections treated as domestic

(b) Similar is the difficulty experienced in the case of a party obtain ing a license but desires not to proceed with the construction for want of funds These matters are no doubt before the water supply Sub Committee The framing of rules after the decisions by the latter will take necessarily long time Therefore it is essential that these matters be placed before the Managing Com mittee and decisions obtained to obviate any trouble that may arise before rules are finally formed
